

# Background Checks

## New Hires, Volunteers, Business Associates

### Why Run Background Checks?

The number one reason to do background checks regularly for new hires, volunteers and potential business partners is to protect your people and your assets. The number two reason is to protect yourself.

You can be held liable if an employee or volunteer commits a crime when you did not properly complete a records check.

Because your name is on the door, it's more than a staffing decision, it's your reputation and your livelihood at stake.

**BE PROTECTED!**
